Hi Michael,

Here is the information that I've gathered so far. I have not been able to verify its accuracy, however the source is one of us and it is deemed reliable. Elmer's Flag & Banner did the original printing of the flag and it appears it was sometime between 1981 & 1986 that the first flag was actually purchased by the city. I hope this helps.

**Importance:** High

Hi Teresa ~

I made the suggestion for, created and designed the City of Gresham Flag. At the time Marty Wynne was Finance Director and Diane Jones was City Manager and Margaret Weil was Mayor. I suggested that I thought the City should have a City Flag with Lilacs (city flower) and our Logo (city seal). Jo Cunningham was Marty's secretary and we met and discussed what the flag should look like. She drew up a sample, it was immediately approved by the City Council and became the official city flag!

No one ever said anything about it before ~ it just appeared on the flag pole one day. I have asked Julie Larson if I could at least order one since I was responsible for its being, but to this date have never seen one.
